

High performance. Delivered.

Spotlight on solutions

Accenture Software for SAP ERP Human Capital Management (HCM) provides deep expertise and delivers proven results to meet today's business challenges by leveraging SAP ERP HCM technology.

Accenture Audit and Compliance Tool

Manage your Payroll, Travel and Master Data quality, security and integrity within SAP ERP. This governance, risk and compliance software is highly flexible, offers an extensive range of preconfigured standard checks and can be quickly and easily customized to individual auditing, compliance and risk requirements.

Accenture Quick Document Builder

Maximize the efficiency and accuracy of HR processes by automating and standardizing document-related SAP processes with Accenture Quick Document Builder. This is an automated and intelligent correspondence document management solution, fusing SAP and Adobe technologies to meet today's IT standards.

Accenture Clone and Test Human Capital Management and Accounting

Create a realistic testing environment by replicating real data from your productive SAP ERP HCM system onto non-productive systems. Accenture Clone and Test also helps with upgrades and migrations to newer SAP releases, scrambling live HCM data to meet privacy criteria.

OrgPublisher™ for SAP® solutions

Visualize your organizational and hierarchical SAP data with OrgPublisher™ for SAP® solutions, supporting HR core processes such as performance management and succession planning in real time. A world-leading software solution to create static charts in Intranet and SAP R/3.

Accenture Data Comparison Manager

Automate and repeat HCM data comparison to support efficient resource employment and keep consistent and high level SAP ERP HCM data quality after upgrades, modifications, extensions or migration projects. Data transformations including mapping, translations and record aggregation allow for comparison of data from different sources.
