## Spotlight on solutions

### Accenture Audit and Compliance Tool meets business challenges

#### Client Profile

Volkswagen Group, headquartered in Wolfsburg, Germany, is one of the world's leading automotive manufacturers and Europe's largest carmaker. The company—which markets its cars under the Volkswagen, Skoda, Bentley, Bugatti, Audi, Seat and Lamborghini brands—employs approximately 325,000 employees around the world. In 2007, the company reported sales revenue of nearly €109 billion (US\$170 billion) and pre-tax profit of €6.5 billion (US\$10.1 billion).

#### Business Challenges

Achieve process excellence and transform the systems and time-consuming processes related to payroll and master data management, in order to strengthen Volkswagen's market position.

#### Software Solution

The Accenture Audit and Compliance Tool is highly flexible, offering an extensive range of preconfigured standard checks for payroll and master data audits. It integrates with existing SAP ERP systems without needing special interfaces. The tool simplifies the configuration of complex exception rules within the SAP ERP Human Capital Management System and can be quickly and easily customized to individual auditing requirements.

#### Results and Performance

- The Volkswagen payroll management function has substantially improved auditing and compliance quality management for its master and payroll data.
- Error correction was made simpler and quicker via an easy to use tool bar.
- Complex payroll audits were combined with a large number of additional criteria to carry out a variety of valuable, independent calculations.
